

TEAMMATES IN AVIATION

SHELL and DON SMITH

Sacramento Municipal Airport Manager

Donald B. Smith has been Manager of the Sacramento, California, Municipal Airport since 1931. His field's new facilities will make it one of the most modern terminals in the U.S.

DON SMITH and Shell both began serving the Sacramento Airport 25 years ago.

In 1930, first year of its operation, six planes were based at the field. Today, under Don's stewardship, Sacramento is home base for 90 privately-owned light planes.

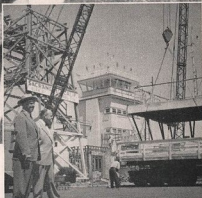

Shell is proud to be a part of this operation and salutes Don on his 25 years of service to this important air terminal.

SHELL AVIATION FUEL

flies the most passengers
the most air freight
the most air mail
in the U. S. A. today

SHELL OIL COMPANY 100 Bush Street, San Francisco 6, California

ABOVE Smith watches as old terminal facilities are torn down. New terminal building rises in the background.

BELOW Shell's representative makes a call at the Sacramento airport.
